PROFESSIONAL EXPERIENCE

TWITCH TV   **2014 - 2019**
Partnered Broadcaster

Produced, scheduled, and broadcasted video content to a remote website on a weekly or daily basis. Analyzed audience retention data and viewer trends to produce targeted content, and changed content to reflect audience demands. Worked directly with developers providing player feedback to help shape the future of the game and to solve existing problems.

VERIZON WIRELESS   **2007 - 2008**
CSR / RSR

Harnessed initiative and resourcefulness to generate additional revenue by leveraging strong interpersonal skills and communication to up-sell during point of sale. Promoted to a sales position from customer service after a year of hire from excellent performance and exceeding all metrics.

MILITARY EXPERIENCE

US AIR FORCE   **2009 - 2014**
Maintenance Journeyman

Fully trained in Aerospace Ground Equipment (AGE) and Precision Measurement Equipment Laboratory (PMEL). Deployed to Ali Al Saleem Air Force Base and supported mission Iraqi Freedom. Diligent driver dispatched 200+ units; lauded by flight-line expediters. 100% completion on all quality assurance tests. Graduated basic training as an honor graduate.

DEVELOPMENT PROJECTS

COFFEE SHOP   **OCT 2019**

Developed search capabilities to interact with website and iterated through data structures primarily of which were arrays. Designed a professional product using Bootstrap Grid and used DOM to dynamically update the page upon interaction.

WEATHER MAP   **OCT 2019**

Learned how to use Mapbox and Darksky APIs and developed an interactive weather map for any known address. Wrote javaScript code so both APIs work in parallel and build a working software program from scratch alone.

MOVIE LIST   **NOV 2019**

Initialized JSON database to load into the site with ajax. On page load generates HTML from JSON responses. Iterated through a complex API to retrieve specific information. Merged to Github while rotating with paired partner programming.

PERSONAL WEBSITE   **NOV 2019**

A fully built website summarizing all projects and job history. Used bootstrap, HTML, and CSS to publish site on github. You can view the site here: joshualpeters.github.io

ADLISTER   **JAN 2019**

A full-stack application with developed functionality to navigate a database. Used MVC coding patterns to organize code with CRUD capabilities.

CAPSTONE   **FEB 2019**

The final project from the Codeup program. A full-stack application created by 3-4 students with real-world application. Projects are demonstrated at the end of February at Codeup.

EDUCATION HISTORY

CODEUP   **SEPT 2019**

A fully-immersive, project based, and intensive 20 week full stack Java career accelerator that provides students with 600+ hours of expert instruction in software development.
